

Video On Demand Instructions

Video on Demand (VOD) allows cable TV customers to order movies any time you want from a video library including new releases, hit movies, classics, and more — from the comfort of your own couch with no tapes to return and no late fees! Forget about waiting around for your favorite movie to play, with VOD you can select a movie and watch it as many times as you want for the next 24 hours. You can even stop, pause, fast forward or rewind your movie with the touch of a button. Purchases will show up on your next monthly statement with the appropriate cost.

1. To Access VOD press **Menu** on the Remote, then select **Rentals**.

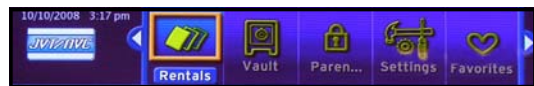

2. Use the arrow keys to scroll through the Rental Categories on the left until desired category is highlighted and press **OK** (Select **All** to view all movies available for purchase).

3. Once a movie category is selected, use the arrow keys to scroll through the different movies. (The **Page Up** and **Page Down** arrow keys will scroll a page at a time).

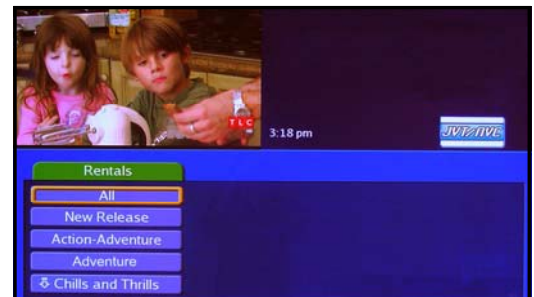

4. Select the movie you want and press **OK** to rent it. A screen will then appear and give the option to **Play Trailer**, **Rent**, **More Info**, or **Cancel**. Clicking **OK** on **Rent** will bring up the screen allowing a Pin Number to authorize the purchase.

5. The Pin Number on your account is **"0"** by default. Enter pin and select **Rent**. Contact the office to change your Pin Number.

6. During the movie you have the ability to stop, pause, fast forward, and rewind at anytime. These buttons are located at the bottom of the remote. If the movie is stopped or has ended, your TV will return to regular programming and the movie will be placed in the **Vault** until the 24 hour rental period has expired.

Accessing The Vault

Rented VOD movies are available to view for 24 hours. If you stop the viewing or want to watch the movie again, it will be placed in the vault.

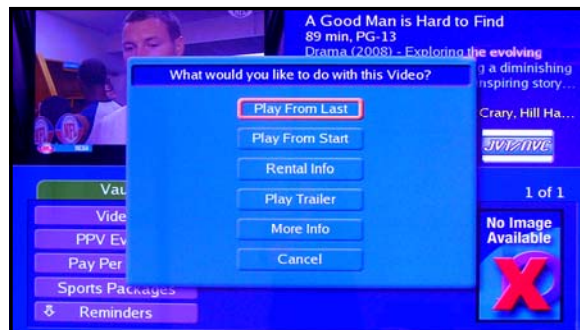

1. To access the VAULT press Menu and then select Vault Option.

2. Find the movie by highlighting the Video tab on the left side of the screen and press OK. This will bring up any movies that have been rented and stored.

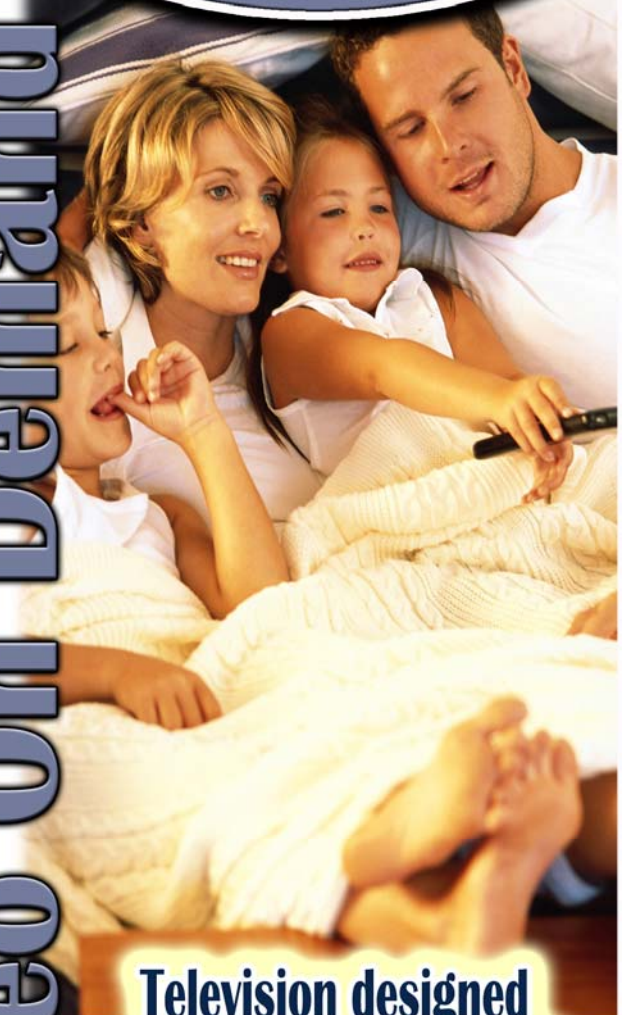

3. Scroll through the movies listed using the arrow keys. Select desired movie and press OK. A Viewing Options menu will appear. Select desired option and movie will begin.
